## SOON TO DOUBLE NAVAL STATION EXPENDITURES

Payments to Contractors at Present Total \$150,000 a Month for New Work

BIDS FOR BIG JOBS TO BE OPENED AT CAPITAL

W. N. Concannon, Prominent San Francisco Contractor, to Look Over Situation

With present expenditures ranging close to \$150,000 a month, it is expected that next month will see contracts let at Pearl Harbor which will increase the payroll at the naval station here fully 50 per cent and perhaps 100 per cent.

Bids on the construction of concrete piers and wharfs, a marine railway, four buildings to serve as officers' quarters, freight elevators, and general supplies will be opened in Washington, D. C., at the bureau of yards and docks, navy department, in September, and work should start immediately on the award of contracts.

For the purpose of looking over conditions here before computing his bid, W. N. Concannon, a prominent San Francisco contractor, is at the Alexander Young hotel today, and will visit Pearl Harbor in order to acquaint himself with conditions there. Mr. Concannon is one of the bidders on the wharfs and piers division of the bids advertised for.

Tomorrow the department will open bids at Washington for building four one-story wooden structures, for use as officers' quarters at the harbor.

Bids on three hydro-pneumatic freight elevators are to be opened in Washington August 28. They are to be used in connection with the wharf and pier system at Pearl Harbor.

September 7 is the date set by the navy department for opening bids on cast-iron pipe, wrought pipe, gate valves, manhole covers, electrical cable, fiber conduits, transformers, fuse boxes, and meters, most of which are to be used in electrical installation at the harbor.

September 18 is the big contracts to be awarded, however, when bids will be opened by the yards and docks bureau of the navy department, for the construction of reinforced concrete torpedo boat piers, ordinary concrete piers and a marine railway.

A great deal of preliminary work has been done at Pearl Harbor in the last 60 days, according to naval authorities here, in preparation for the big contracts. A coal shed and several new buildings have been erected, structural steel placed and other things done as a curtain-raiser prior to the big act.

When all Pearl Harbor fortifications and improvements are completed, the total expenditure for this naval base, the most strategic point in the Pacific, will have reached the imposing total of \$13,000,000.

## GERMANY SLAUGHTERS BIGGEST OX IN WORLD

SCHWERIN, Germany. — "Sultan," the biggest ox in the world, has been brought here for slaughter. He was exhibited at all the big cattle fairs in Germany. He is a giant of flesh and bone, just a fraction of an inch under 6 feet 10 inches in height and weighs 4189 pounds. He is pure white and was bred from a zebu or Indian bull.

## FREE ADVICE TO SICK WOMEN

Thousands Have Been Helped By Common Sense Suggestions.

Women suffering from any form of female ills are invited to communicate promptly with the woman's private correspondence department of the Lydia E. Pinkham Medicine Co., Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence. A woman can freely talk of her private illness to a woman; thus has been established a confidential correspondence which has extended over many years and which has never been broken. Never have they published a testimonial or used a letter without the written consent of the writer, and never has the Company allowed these confidential letters to get out of their possession, as the hundreds of thousands of them in their files will attest.

Out of the vast volume of experience which they have to draw from, it is more than possible that they possess the very knowledge needed in your case. Nothing is asked in return except your good will, and their advice has helped thousands. Surely any woman, rich or poor, should be glad to take advantage of this generous offer of assistance. Address Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass.

Every woman ought to have Lydia E. Pinkham's 80-page Text Book. It is not a book for general distribution, as it is too expensive. It is free and only obtainable by mail. Write for it today.

## LOCAL AND GENERAL

The Knights of Kamehameha held a special meeting at the Y. M. C. A. last night and decided to give a musical concert and dance at Kaneohe, Windward Oahu, one week from tomorrow.

A suit for divorce has been filed in the circuit court by Alexander H. Smith against Mary Smith, the former charging a statutory offense against his wife. Both are residents of the Moikoi settlement.

Students and teachers of the territorial summer school are praising the hot noon lunches which were furnished them during the session. Mrs. Jane M. Otremba, who had charge of the lunches, reports a profit of 83 cents.

School board commissioners will meet Monday to take up different matters of business concerning the work of the coming year. A report will be submitted by the committee that has been working on a revision of the course of study. Appointments of several instructors will also be made.

A dance will be given at the home of Miss Charlotte Aho, Hotel and Punchbowl streets, tomorrow evening under the auspices of the Knights of Kamehameha. The affair will be known as the "President's Dance" and will be the first of a series of dances which has been planned by the organization.

Circuit Judge Stuart tomorrow will hear a motion to set for trial the case of Capt. A. F. Cassels, First Field Artillery, against Charles T. Wilder, tax assessor for Oahu. The case is to determine whether the assessor has the right to tax automobiles which may have been on a federal reservation on the first of the year.

A bunch of big Bluefield bananas, grown in Kaimuki, and placed for exhibition in the window of the Promotion Committee, attracted considerable attention among passersby this morning. The bananas were picked by Zeno K. Myers, a former member of the Promotion Committee, and an active booster.

## Fort Shafter Notes

(Special Star-Bulletin Correspondence) **PORT SHAFTER, Aug. 20.**—The leave of absence for two months recently granted 1st Lieut. C. R. Abraham, 2d Infantry, has been extended eight days. Lieut. Abraham expects to leave the department about the first part of October and will return on the December transport.

Company I, 3d Battalion of Engineers, have demonstrated that a sapper can shoot a rifle as well as dynamite, and out of an enlisted strength of 157 men Capt. Gee, commanding, announced a total of 103 qualified. Considering that the engineers have been split up into small groups scattered all over the island, this is a remarkable achievement and a splendid record. Lieuts. Lyman and Benson, the only officers shooting with the company, both qualified as sharpshooters. Lieut. Lyman missing expert by four points. Sgt. Stewart and Pvt. Varner, the football star, tied for first honors, each having a total of 361 to his credit out of a possible 300. Other experts were Mitchell, 253; Bishop, 254; Kempton, 254, and Elliott with 253. Capt. Gee, being an expert rifleman, did not fire.

After the "movies" last evening Lieuts. Silvester, Jones, Polhemus and Dr. Delber gave a house warming in their new bachelor apartments on Mallard lane. All of the young folks of the garrison were present and a most enjoyable time was had. Rarebits and sandwiches, root beer and pop, dancing and singing all helped to liven up the mansion and give it a proper christening befitting the dignity of Duckville.

The recruits of the 1st and 2d Battalions, 2d Infantry, have started practice over Course A, while the band, mounted orderlies and officers and sergeants of the companies now in the post are holding pistol practice. Lieut. Vernon W. Bolter, 2d Infantry, was the only officer of Companies A and B to make expert and no enlisted men qualified.

Upon the recommendation of the commanding officer of Company F, 2d Infantry, the following promotion and appointment is made in that organization: Cpl. Stanley Satterwhite to be sergeant and L. Cpl. James McCarthy to be corporal, vice Satterwhite.

Lieuts. S. H. Foster and E. L. Hoffman, 2d Infantry, now on leave of absence in the United States, have received orders to remain in San Francisco until the arrival of the 24th Infantry from the Philippines. They were recently transferred to the 24th.

Upon the recommendation of his company commander the following appointment is made in the Machine Gun Company: Pvt. Cecil Kistler, Co. B, to be sergeant, vice McPalmer reduced.

At his own request and with the approval of the commanding officer of the Machine Gun Company, Sgt. James C. McPalmer of that organization is returned to the grade of private.

Pvt. Harold G. Johnson, Co. F, 2d Infantry, has been transferred to Field Co. E, Signal Corps, and will report to the commanding officer of that organization for duty.

Cpl. Frank Iamucelli, Co. E, 2d Infantry, will be discharged from the army by purchase.

Cpl. Forrest C. Murphy, Q. M. Corps, Fort Shafter, has been ordered to Honolulu for station.

## SHEEDY DUCKED IN SURF TRYING LAHAINA LANDING

Boatload of Inter-Island Officials and Inspectors Upset Wednesday Afternoon

Lahaina landing, for the second time, was demonstrated to be a dangerous place for putting passengers ashore, when, on Wednesday afternoon, a boatload of inter-island officials and federal inspectors, were overturned in the surf, only a short way from where, on the night of May 1, occurred the accident that resulted in the drowning of two deck passengers, a Japanese woman and a Chinese.

The boat which was upset in the treacherous waters on Wednesday afternoon contained no regular passengers. It was a special boat, and filled with men who had gone especially to make a study of the landing to see if the conditions there bore out the testimony of witnesses in regard to the former accident. Hiku, the former boat-steerer, was in control of the steering oar.

Joseph E. Sheedy, general superintendent of the company, had charge of the boat, and smiled broadly today when asked if he knew anything of the upsetting.

"I ought to," he answered, "for I was one of those who was in it. In fact I guess the joke is on me."

"We were making an investigation of the landing," continued Mr. Sheedy, "and we had told Hiku, the boat-steerer, to take us to the scene of the accident, and show us as near as possible how it all had happened. He showed us as best he could."

"Capt. Berg, who was in charge of the Kilauea on the night of the accident was in the boat with me, together with the federal inspectors. I was standing up, preparatory to taking a picture of the place, when a roller hit us and took us over. Some of the men swam ashore, but others walked, as the water was very shallow. The affair was not serious at all and would not have happened had the men been pulling. We were about 150 feet from the wharf, but out more in the breakers than was the boat on the night of the accident."

## FORGED STEEL SHELLS SOUGHT BY BELLIGERENTS

PITTSBURG, Pa.—Efforts to obtain bids for five-inch and eight-inch high explosive, forged steel projectiles from the steel plants of the United States are being made by foreign military commissions, but so far they are meeting with many obstacles. A high grade of cast steel shells can be turned out easily by the numerous smaller steel plants in this country, but it would mean the installation of expensive presses or steam hammers to do the forging work required for forged shells.

The steel requirements of the military commissions call for a mixture not exceeding 0.55 per cent of carbon, 0.5 per cent of nickel, 0.3 per cent of silicon, a minimum of 0.4 per cent of manganese and not more than 1 per cent of the same ingredient and a maximum per cent respectively of 0.05 sulphur, 0.05 phosphorus and 0.1 copper.

Many of the steel plants in the United States are capable of producing an even better grade of steel than that indicated, and it is understood that because of the forging difficulties several Canadian plants have been permitted to furnish a high grade of cast steel projectiles in lieu of the forged shells specified.

The shells must submit to mechanical tests showing a minimum yield of nineteen tons a square inch for tenacity and a breaking power ranging from thirty-five to forty-nine tons a square inch.

The 6-inch and 8-inch shells are designed for use in field mortars and with special reference to destroying enemy trenches. The explosive employed is poured into the shell and hardens very much like rosin. The basis of this high explosive is picric acid.

At the beginning of the war the chief concern of foreign military commissions was for shrapnel, but this form of projectile, while ideal against troops in the open, is not adapted to trench fighting. The effect of the explosion of a 6-inch shell in front of a trench is to cause small craters, with the corresponding result that the ground in front of the trench is opened and the trench exposed.

It is said by steel men that if the foreign military commissions will accept cast steel shells there are many small plants in the United States which can at once be put to work. The large plants—thus supplied with forging presses—are now absorbed to their full capacity and no immediate augmentation of the output of projectiles can be expected unless the capabilities of the smaller shops are utilized. The question of changes in specifications is now under consideration, it is said, at several of the foreign arsenals and if the adoption of cast steel is authorized the immediate effect, it is declared, will be to bring

## COMMITTEE OF FIFTEEN WILL PROBE TRAFFIC

A committee of 15 persons to consult with the Pacific Mail, Matson, Oceanic and American-Hawaiian Steamship companies in the matter of the alleged congested passenger traffic on ships running between Hawaii and the mainland, was appointed late yesterday by Edward I. Spaulding, president of the Bank of Honolulu, who was in the chair at the Chamber of Commerce meeting on Wednesday.

The committee consists of the following: L. Tenney Peck, chairman; F. C. Atherton, R. W. Breckons, E. A. Berndt, George R. Carter, A. L. Castle, W. P. Frear, C. R. Hemenway, F. J. Lowrey, F. W. Macfarlane, W. H. McInerney, R. W. Shingle, George W. Smith, Harry L. Strange, D. L. Withington.

The committee has been requested to report back to the chamber as soon as convenient regarding such remedies as may be offered.

Police of Southampton, I. I., deny the report that the \$50,000 necklace and the marquise diamond ring stolen from the home of Mrs. Sherwood Aldrich had been found.

Hans Karpela, 12 years old, was killed by falling down an elevator shaft in his home in New York.

into line several hundred medium sized steel plants throughout the United States.

## WHAT CATARRH IS

It is said that every third person is troubled with catarrh in some form.

Science has shown that nasal catarrh indicates a weakened condition of the body; that the secretions of the mucous membranes are quickly affected, and local treatments in the form of snuffs and vapors, do little if any good.

To correct catarrh you should treat its cause by enriching your blood and improving your general condition with the oil-food in Scott's Emulsion which is a medicinal-food and a building-tonic, free from alcohol or harmful drugs.

Scott's Emulsion is not a patent medicine but a concentrated medicinal-food, prescribed by the best physicians for forty years.
